

Name of the Committee / Department : Nature Club/Botany

Event: Workshop on Kokedama

Day/Date: Thursday, 8th August 2019

Time: 12.30 to 2 pm

Venue: Staff room

Brief Description: Kokedama, also known as "moss ball," are a Japanese style of planting, using moss and specialized soil wrapped around the roots of a plant. Also known as string gardens, Kokedamas can be hung or set on a dish, creating an artistic & natural looking way to grow your plants.
