

IQAC

MINUTES OF THE MEETING

Agenda: Use of E-resources in the classrooms

Date: 05/12/2018

A meeting of the IQAC was held on 05.12.2018 at 11.30 a. m. / ~~p.m.~~ in the
IRAC Room.

The following points were discussed in the meeting:

1. It is observed and agreed by all members that with changing times teachers should put to use new technologies in the teaching-learning process.
2. It is suggested that all teachers should use ICT based content in at least 10% of their teaching.
3. Those departments that have an LCD projector and screen can use their own facility. Where such facilities are not available, a separate audiovisual room has been set up for this purpose and teachers should make use of it. They should inform the prof-in-charge of the lecture at least a day in advance.
4. Students are seen to be liberally using the Internet for educational resources now-a-days. Teachers should educate students of the ills of plagiarism and also the need to verify information on the Net before accepting it, as there are a lot of fake sites where false/doctored information is uploaded.
